PROFILE

Senior Full-Stack Developer with 10+ years of experience delivering scalable web applications, modernising legacy systems and leading product improvements across front-end and back-end teams. Strong track record in Vue, Nuxt, React, TypeScript, Kotlin, C# and cloud platforms, with particular strengths in AI-powered features, UX-focused product development and turning complex requirements into high-impact technical solutions.

TECHNICAL SKILLS

Languages:	Kotlin, C#, Java, PHP, Python, SQL, HTML/CSS & TypeScript
Front-end Frameworks:	Nuxt, Vue, React, Next, Tailwind
Back-end Frameworks:	.NET, Laravel, Spring & http4k
Mobile:	Xamarin/MAUI & Flutter
Cloud/Hosting:	Azure, AWS, Google Cloud Platform & Digital Ocean
Tools/Platforms:	Docker, Storybook, Umbraco, WordPress & Strapi

EMPLOYMENT EXPERIENCE

The Stream

London, UK

Senior Full-Stack Developer

March 2025 - Present

- Built and iterated on a CRM platform for wealth and asset managers, shipping full-stack features that improved key research workflows for internal teams and end users.
- Designed and delivered an AI chatbot enabling users to query internal data in natural language, cutting time spent manually searching for information and improving access to research insights.
- Created a custom Microsoft Word add-in that streamlined note ingestion into the platform, reducing manual effort and improving adoption among research users.
- Implemented customisable dashboards for users to configure their preferred views, layouts, filters, charts and data to support different research workflows.

First Circle

(Remote), Philippines

Senior Full-Stack Developer

March 2024 - March 2025

- Modernised legacy API and front-end projects, improving maintainability and delivery speed.
- Managed and mentored 3 junior developers, strengthening onboarding, improving technical confidence and helping the team deliver more consistently.
- Delivered a document data extraction tool that converted PDFs and low-quality scanned images into structured data, improving accuracy efficiency and reducing processing time from hours into minutes.
- Built an individual verification platform for the internal team, improving efficiency and opportunity to scale and process many more individuals..

Asurafin Financial Technologies

Glasgow/London, UK

Senior Full-Stack Developer

March 2021 - March 2024

- Built and maintained web applications using Storybook, Nuxt, Vue and Tailwind.
- Developed Kotlin APIs using http4k, jOOQ and PostgreSQL to deliver regulated client reporting with a strong focus on accuracy and reliability.
- Led and mentored a team of front-end engineers, helping raise code quality, improve delivery standards and support team growth.

- Worked closely with clients and internal stakeholders to translate requirements into technical solutions, improving delivery clarity and reducing rework.

Drummond Central

Newcastle upon Tyne, UK

Senior Developer

July 2016 - March 2021

- Built and maintained .NET web applications in C# and mobile applications in Xamarin for iOS and Android across multiple client projects.
- Built front-end applications in Vue and supported clients across support, delivery and iteration cycles.
- Progressed from Junior Developer to Senior Developer within 4 years, reflecting strong technical growth and consistent delivery.
- Led delivery on multiple client projects, working directly with stakeholders to translate requirements into working products.

British Engines

Newcastle upon Tyne, UK

SharePoint Developer

(University Placement Year) July 2014 - July 2015

EDUCATION

BSc Computer Science

Newcastle University
